

- 1. Title: SMIC IT Request Management Procedure↵
- 2. Purpose: Objective of this procedure is to ensure Completeness & Rationality of IT requests, so as to optimize SMIC management efficiency fastest.↵
- 3. Scope: IT Application Systems↵
- 4. Nomenclature:↵
 - 4.1. Fab Related: IT/MIT related↵
 - 4.2. Non-Fab Related:IT/CIT related↵
- 5. Reference:↵
 - 5.1. IT-CIMS-01-2006: SMIC(SH/TJ/SZ)1 T/CIM Software Control Procedure↵
 - 5.2. IT-CIMS-01-2008: SM|C(BJ/SH/SZ)1T/CIM Software Control Procedur↵
- 6. Responsibility:↵
 - 6.1. SMIT IT Development Team↵
 - 6.1.1. Take the responsibility for IT technical solution evaluation;↵
 - 6.1.2. Take the responsibility for IT technical solution resource cost evaluation;↵
 - 6.1.3. Take the responsibility for IT development resource planning;↵
 - 6.1.4. Take the responsibility for IT service request system maintenance↵
 - 6.2. User↵
 - 6.2.1. Take the responsibility for user request document implementation↵
 - 6.2.2. Take the responsibility for user request measurable benefit valuation;↵
 - 6.2.3. Take the responsibility for related org. user request alignment;↵
 - 6.3. TBC (Technical Board Coordination) ↵
 - 6.3.1. Take the responsibility for fab user request prioritization if the priority are confict across function↵
 - 6.4. QRE↵
 - 6.4.1. Take the responsibility for non-fab user request prioritization if the priority are confict across function↵

- 7.2. Request Preparation[↵]
 - ✧ Users should provide below information for management change to issue change request and apply in IT service request system for signoff[↵]
 - ✓ Background (Current management, pain point)[↵]
 - ✓ Management Change (Improvement Idea)[↵]
 - ✓ Benefit[↵]
- 7.3. Request Valuation (Benefit)[↵]
 - ✧ For Fab related:[↵]
 - ✧ Based on management change, user should provide request benefit in \$[↵]
 - ✓ Benefit Approval Procedure[↵]
 - ✓ Benefit' <=\$100,000(100K) → Need direct manager approval[↵]
 - ✓ \$100,000(100K)<Benefit<\$1,000,000(1M) → Need module head approval[↵]
 - ✓ Benefit >= \$1,000,000(1M) → Need fab head approval[↵]
 - ✧ Benefit type[↵]
 - ✓ Cost saving → Need measurable benefit in \$[↵]
 - ✓ Efficiency improvement → Need measurable benefit in \$[↵]
 - ✓ Quality improvement → Need measurable benefit in \$[↵]
 - ✓ Customer satisfaction → Need attach related email[↵]
 - ✓ Top management strategy → Need attach related email[↵]
 - ✧ For Non-Fab related[↵]

User should provide the qualitative benefit of requests before submitted to IT[↵]
- 7.4. User Alignment[↵]
 - ✧ User contact windows should get approval from his/her organization[↵]
 - ✧ User should get approval from all relative user organization.[↵]

For example, Fab1 DIFF operation request need be approved by Fab7 DIFF Security[↵]

Requirement need be approved by Legal or IT security team.[↵]
- 7.5. Solution & Resource Cost Evaluation[↵]
 - ✧ After user request approved by all relative user contact windows, IT should provide technical solution with resource cost in \$ for each request.[↵]
- 7.6. Request Accept Criteria[↵]
 - ✧ For Fab related (Accept request which meet below all items):[↵]
 - ✓ Benefit approved by all relative user and management team[↵]
 - ✓ IT Solution is feasible[↵]
 - ✓ ROI (ROI = Benefit / IT development cost) > 1[↵]
 - ✧ For Non-Fab related[↵]

IT will negotiate with user to make the decision by benefit, ROI and IT resource.[↵]
- 7.7. Request Prioritization[↵]
 - ✧ For Fab related[↵]
 - ✧ Priority = Contribution * Urgent[↵]
